

"technology sets us apart"

Search 2.0

Search 2.0™ from StockPhotoFinder .com enables your access to the most advanced technology in the stock photo industry on a seat license basis. Search 2.0 applies the functionality of our customizable version for corporate installation to the largest aggregation of professional stock photos available in one place, and does so at easily affordable prices.

Not only can Search 2.0 save 40% to 80% of the time you spend finding images, it will also help you find the better image by simultaneously searching millions of images from nearly 200 stock photo collections. Thousands of new images become searchable daily.

Ask for a "test drive" of this unique, state-of-the-art functionality, the fastest and most intuitive search of the stock photo industry.

Save Time, Work Smart

- More professional imagery in one place
- The fastest stock photo search in the biz
- Shop price with "Get-A-Quote"
- "Research Request" submits queries to all image providers
- "Similar Search" gathers similar images in concept and appearance
- "Scalable Lightbox" and "Bottomless Scroll™" make for easy editing
- "Universal Registration Application" enables multi-website registration
- Create your own customized search groups of your favorite agencies
- Login authentication helps to protect your work
- Lightboxes enable you to share notes, group quote requests, sort by provider and can be emailed to colleagues
